

RECLAMATION

Managing Water in the West

Suisun Marsh Restoration Plan Implemented with Ceremony

View of the Suisun Marsh, which is a critical part of the San Francisco Bay/Sacramento –San Joaquin River Delta estuary.

Federal Agencies Announce Signing of Record of Decision

Pablo Arroyave, Deputy Regional Director for Reclamation's Mid-Pacific Region (lower right), addresses an audience at a ceremony on Thursday, April 24, 2014. The event celebrated the implementation of the comprehensive, 30-year plan to restore, preserve and manage Suisun Marsh. It is the largest contiguous brackish marsh on the West Coast and home to diverse wildlife such as the pheasant and otter (at right). Lead agencies in developing the plan were Reclamation and U.S. Fish and Wildlife Service, along with the California Department of Fish and Wildlife. Other agencies involved in developing the plan included the Suisun Resource Conservation District, the California Department of Water Resources, the Delta Stewardship Council and the National Marine Fisheries Service.
